

Onsite Training... Is It Right For My Business?

Research shows that onsite training is a big timesaver.

Small companies benefit from employees who can catch up with pressing work right after class. Major employers save the travel and per-diem expenses that may accompany multi-day seminars.

Our certified, licensed instructors get training right. Our homebase is Maryland, but our motto is "have students, will travel."

Call Ann Thompson, our academic registrar, today to learn how Damar Group's certified instructors will improve your productivity in just one day. Ann's number is 410.290.7000. Call her now.

Net Attack

Losses related to last week's Distributed Denial of Service (DDOS) attacks that shut down several popular websites could easily come to more than \$1.2 billion, according to a report from the Yankee Group.

Office Registration

Microsoft Office 2000 SR1 users must register their software or it will expire. Details at dgl.com/itinfo/2000/it000210.html.

Reason #474 to Train With Damar Group

We know how businesses use software. That's why we get a 99% satisfaction rating year after year.

Windows 2000 Hardware

Microsoft says that Windows 2000 (W2K) will run on existing computer hardware.

Dell says W2K will run on 400MHz or faster systems with at least 128MB of RAM. Intel says we'll need systems that are 150 to 250MHz faster than those that now run WinNT.

USB 2

Universal Serial Bus v2.0 is coming this year.

Boasting speeds of 480Mb per second, it will connect peripherals such as printers, scanners, mice, and networks 40x faster than the current USB specification.
