## *Netscape Navigator Guide*

New Training Express computer software learning guides are now available online.

The Netscape Navigator learning guide complements our Internet Website Development guides and is available in print and Electrobook™ formats.

Complete product information, including details about our international partners, is available on the web at <http://www.dgl.com/>.

For more information, contact [books@dgl.com](mailto:books@dgl.com).

## *Upcoming Classes Database Online*

We've created a database of all upcoming classes scheduled in the next four months, and we put it on our website.

The database system was developed in SQL, Structured Query Language, and uses a new product, SQLweb, to allow the information to be accessed on the web using web browsers such as Netscape Navigator, Microsoft Internet Explorer, and Spy Mosaic.

The system was created in just a few hours, and it's much easier to maintain than the HTML pages we previously posted.

SQLweb is a unique application. It allows standard-format database tables, including relational tables, to be accessed via HTML. Data can be searched, changed, and deleted. Passwords can be used to prevent unauthorized access.

The database is posted at <http://www.dgl.com/crslist.html>. It may also be accessed via our homepage at <http://www.dgl.com/>.

## *New Top Level Domains*

Debate is now open related to the release of new top-level domains for Internet addresses.

The popular ".com" domain for commercial sites may be supplemented with new domains such as ".law" and ".oil," to name a few.

There is high competition for the short, popular domain names that end in ".com."

By adding additional top-level domains, the number of possible names will increase significantly. Look for additional domains later this year.

## *Wire Your LAN to the 'Net*

One of the most difficult tasks that businesses face is how to economically share access to the Internet for all users of a local area network.

We've found Instant Internet is the easiest way to connect up to 50 PC users of any local area network to a single dialup connection.

So, rather than installing multiple modems and phone lines, a single phone line connection can be shared. And, if you need the extra bandwidth, ISDN and other digital connections may be used.

For more information, including a picture of the product, please visit <http://www.dgl.com/> ...there's a link to the information page near the top of our homepage.

## *Stay Healthy*

Are you ready to survive the cold and flu season? We hope you are by visiting McAfee's site on the Internet and purchase their newest antivirus software program at <http://www.mcafee.com/>. Protect yourself now.

## *New Specialty Seminars*

We are pleased to offer new specialty seminars starting in October. These 90-minute seminars are designed to help you get productive right away on specific topics that interest you.

Based on last month's survey, we've created and scheduled four of new Internet specialty seminars.

### *Preparing & Optimizing Graphics*

Monday, October 21, 5:30 P.M.

### *Animating Graphics*

Monday, October 21, 7:30 P.M.

### *HTML Tables*

Wednesday, October 23, 5:30 P.M.

### *Creating Online Response Forms*

Wednesday, October 23, 7:30 P.M.

These are hands-on, quick-start learning programs. You'll walk out of class with new skills that you can start applying right away.

For more information, please call the registrar at 410.290.7000 or [registrar@dgl.com](mailto:registrar@dgl.com).

In the coming weeks, we'll schedule other specialty seminars on topics such as *Business Conferencing on the 'Net, Creating Secure Websites, Getting On Search Engines, Image Maps, Creating a Search Engine for your Website, Site Access Counters, and Microsoft FrontPage.*

If you didn't get a chance to respond to our survey, please drop us an email message or call us with your thoughts.

We want to prepare the training programs that you most need!

--Registrar

## *DGL Email Addresses*

[books@dgl.com](mailto:books@dgl.com) (learning guides)  
[registrar@dgl.com](mailto:registrar@dgl.com) (academic registrar)  
[sales@dgl.com](mailto:sales@dgl.com) (corporate training & product sales)  
[info@dgl.com](mailto:info@dgl.com) (WebPhone & email technical assistance)

## *Subscriptions & Past Issues*

If you know someone who would like to receive a free subscription to *Just The Fax* or to cancel your subscription, call Customer Service at 410.290.7000 or [info@dgl.com](mailto:info@dgl.com). Past issues are on the Web at <http://www.dgl.com/softtips.html>.
